Art Unit: 2622

1. The following is an examiner's statement of reasons for allowance: the prior art fails to show or fairly suggest a method of processing data within a teletext sequence having the combination as claimed, including determining a phase of a run-in burst within the teletext sequence, identifying a location of a framing code within the teletext sequence and validating the teletext sequence, as recited in claim 1. Further, the prior art fails to show or fairly suggest a system for processing teletext message sequences having the combination as claimed, including a correlator coupled to an input, a sine wave generator coupled to the correlator, a first time window generator coupled to an H-SYNC input, a phase detector coupled to outputs of the correlator and the first time window generator, a second time window generator coupled to the H-SYNC input, and a framing code search engine coupled to outputs of the phase detector and the second time window generator, as recited in claim 10.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sherrie Hsia whose telephone number is (571) 272-7347.
